

Coppell Resident Offers the *Right Choice For Painting Services*

The owner of Right Choice Painting and Construction in Coppell said his formula for success has been simple.

“I do every job as if it were my own home,” said Jeff Adkinson, who worked the last 12 years for a large construction company before recently starting his own business. “I’ve been fortunate enough to meet nice people who are appreciative of quality contractors. When people find a reputable contractor— they tell their friends.” We always go the extra mile, we not only strive to do a great job, but we work hard to respect the customer’s home, their children, their animals, and their belongings. We do whatever we can to minimize the disruption to their daily lives, during the construction process.

Jeff’s construction career took him to some remote destinations, mostly recently in the coastal region devastated by Hurricane Katrina.

Lucrative as it may have been, Jeff said the hours were endless and the travel relentless, and the time spent away from his family soon became intolerable.

“I just got tired of being a road warrior,” Jeff said. “I decided I wanted to be home with my family.”

He and wife Jan have a son in the marines and two daughters in college, with a third daughter attending Coppell High School.

Most of them help with the business in some way, with Jan handling the company’s administrative duties.

Jeff invites Coppell residents to give him a call for any of their painting, carpentry, roofing, and drywall needs, regardless of the project’s size.

“We treat them all the same,” said Jeff. We’ll do it right the first time—the way that it should be

done. We don’t compromise our quality.” The bulk of Right Choice Painting and Construction’s business comes from residential re-paints, but the company is also taking on an increasing number of commercial clients.

“We place our focus on handling the residential customer, but we can handle commercial jobs as well,” said Jeff. We have the personnel to handle just about any construction project, and if we can’t deliver a first class job, on whatever the project is, we simply won’t compromise our integrity.”

For a free estimate, or to find out more about any of their services, call 214-882-0455.
